Vragen?

DE KWALITEIT VAN DE VLAAMSE ZIEKENHUIZEN IN KAART GEBRACHT

De ziekenhuizen in Vlaanderen meten de kwaliteit van hun zorg. Sommige metingen doen ze vrijwillig, andere zijn verplicht. Deze website biedt patiënten en professionele zorgverleners de mogelijkheid om de gemeten resultaten per ziekenhuis te raadplegen en te vergelijken. De metingen gebeuren in samenwerking met onder meer de Vlaamse overheid, de Vlaamse Vereniging van Hoofdartsen, het Vlaams Patiëntenplatform en de koepel Zorgnet-ICURO.

Welke ziekenhuizen meten hun kwaliteit met VIP²

De ziekenhuizen in onderstaand overzicht nemen **vrijwillig** deel aan het VIP²-project. Dat betekent dat zij onderdelen van hun kwaliteit meten via indicatoren. De ziekenhuizen kunnen zelf kiezen welke indicatoren ze meten.

Ziekenhuizen kiezen ook zelf of ze hun resultaten bekend maken. De resultaten van de ziekenhuizen vindt u op zorgkwaliteit.be.

Hieronder vindt u een lijst van alle ziekenhuizen et aanduiding welke thema's ze meten en online zetten. (deze lijst kan licht verschillen met wat op zorgkwaliteit.be staat, aangezien deze recenter is).

en staan de resultaten op zorgkwaliteit.be

The screenshot shows a web browser displaying the homepage of the TraumaNetzwerk DGU. The browser's address bar shows the URL www.dgu-traumanetzwerk.de/index.php?lang=en. The website header features the DGU logo and the text "TraumaNetzwerk DGU® DEUTSCHE GESELLSCHAFT FÜR UNFALLCHIRURGIE". A search bar is located to the right of the logo. Below the header, there is a navigation menu with options like "AUC", "DGCH", "DGOOC", "ACS", "Kontakt", and "login". The main content area is titled "Home" and contains a welcome message: "Welcome to the website of the TraumaNetzwerk DGU® of the German Society for Trauma Surgery". The text explains the organization's goal to ensure the best possible care for severely injured patients in Germany. It also mentions the participation of various institutions and the support of the German Society for Trauma Surgery. At the bottom of the main content area, there are three signatures and their corresponding names and titles: Hartmut Siebert (General Secretary), Christoph Josten (Chairman DGU 2012), and Steffen Ruchholtz (Spokesperson AKUT). A sidebar menu on the left lists various website sections such as "Home", "Links", "Latest news", "Ambition", "Registration", "Certification", "Trauma registry", "Map", "FAQ", "AKUT", "Literature", "Forms", "Contact", "Research", "Press", and "Consiliation proceedings".

Daalt de mortaliteit
van majeur trauma
door een traumaneetwerk?

*“Mortality was reduced by 15 –25%
when severely injured patients
were treated at a trauma center.”*

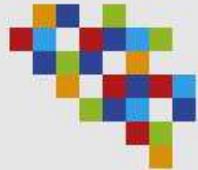

“The mortality rate of severely injured patients has dropped from 25 % to approximately 10 % in the past 15 years.”

“Transfer to a tertiary trauma center was associated with a significantly lower 30-day mortality (HR = 0.38; 95% CI = 0.30 to 0.50) compared to admission and treatment at a nontertiary trauma center. “

OPLEIDING

European Trauma Course

The screenshot shows the top portion of the European Trauma Course website. At the top, a dark blue banner contains the text "European Trauma Course" in white, with "The Team Approach to Trauma" in teal below it. A navigation menu follows with links for Home, Background, The Course, Information, News, ETCO, and Contact. Below the menu is a large photograph of surgeons in an operating room. Underneath the photo, a blue heading reads "Welcome to the international website of the ETC". At the bottom of the page, there is a row of logos for the European Society of Anaesthesiology (ESA), the European Trauma Course (ETC), the European Association of Emergency Medicine (EAEM), the European Society of Trauma Surgeons (ESTS), and the European Resuscitation Council (ERC). To the right of these logos is a dark blue box with the text "European Trauma Course" in white.
